

Azah Awad- Participant in the UP Course – WIT-Hadhramout - Yemen

Azah Awad is a young women who is 25 years old . She is living with her family in Ghail bawazeer . She managed to complete elementary school only . She couldn't go in high school for medical reasons at that time . Her mom and friends encouraged her to take the unlimited potential course . And they were so exited about the PD workshops associated with the course .

Azah heard about the program from her friends ,who had taken the course . Azah was so interested to learn about computers and pdt where she says " *I am a housewife but I will always consider myself a student and seek for knowledge* " . Now she thinks that technology is spreading everywhere in all fields of life . Where now it's essential to have computer skills to join the workforce. " *There is an amount of energy inside each woman , each has it for a different path to use it* ",she says. Azza thinks that the WIT Program is giving the women a chance to prove that they are not helpless and they can be as good as me in workforce . It's a good chance for those women to get jobs after taking the course and to increase their families' income .

She assures that she gained a lot of knowledge from each pd workshop . She is planning after the UP course to take another courses in computer such as Photoshop , maintenance and other computer courses . Also she is trying to get more training to develop her professional skills. She have started to read in how to develop her skills in books and cds . She hopes that she can be a productive person in her society .

Azzah has always wanted to be a psychiatric or a specialist in psychology . She finds it interesting and rewarding . She loves to help people and being a psychiatric would give her this opportunity. She thinks It's a noble thing to do , trying to understand people , not judging and comfort them to keep going on .

Azah's mother is her role model of hope , believe , courage , patience, loyalty and challenge . She hopes that she can be just like her mom . Azah thinks that in her moms days they had better life .Now she thinks everything is just causing pressure , which is not healthy for anybody . She thinks things will even go faster for her daughter and more stress will on their burden .
